

Amanda Seay, DDS

Park West Dentistry • Mount Pleasant, South Carolina

Dr. Amanda Seay is the owner and solo practitioner of Park West Dentistry, a private practice in Mount Pleasant, South Carolina. Her expertise ranges from complex restorative treatment planning to comprehensive preventive and restorative dentistry, as well as from dental implant and reconstructive dentistry to dental photography. A mentor at the Kois Center, Dr. Seay also has published articles covering the art and techniques of aesthetic dentistry. In addition, she serves on the editorial boards of several peer-reviewed journals. A graduate of New York University College of Dentistry, she commits herself to hundreds of hours of continuing education each year and is currently in the accreditation process with the American Academy of Cosmetic Dentistry (AACD). She can be contacted at: frontdesk@amandaseay.net.

What's on Your Composite/Restorative Tray?

As dentists, whenever the rare opportunity arises to visit other dentists' practices, we're interested in how the practice operates. What most of us never get to see during our visits are our colleagues' tray set ups – the tools they use for specific procedures. Because of this curiosity, *Dentaltown Magazine* has asked its readers to share how their trays are set up, what instruments they use and what brands they prefer. This month we asked dentists to submit their composite/restorative tray-table set ups and we chose to highlight the following submissions. If you'd like to participate in future "What's On Your Tray?" features, let us know (see page 66 for details).

Jaimee Morgan, DDS

Presley Orthodontics, Family and Cosmetic Dentistry • Salt Lake City, Utah

Dr. Morgan received her dental degree from the University of Texas Health Science Center at San Antonio. She divides her professional career between clinical practice and teaching. Her lectures have spanned the globe from the United States to Europe, South America, Australia and Asia. She regularly contributes articles to dental periodicals and journals on cosmetic dental techniques for the general practice. She has served as a founding member of the South Texas Chapter of the American Academy of Cosmetic Dentistry, and has given numerous lectures at major national dental meetings. She has served on the Board of Directors of the American Orthodontic Society. Salt Lake City, Utah, is the site of her dental practice where she provides both cosmetic restorative and orthodontic treatment with her husband, Dr. Stan Presley. She has earned the reputation of teaching cosmetic and orthodontic techniques using a practical approach that is both enjoyable and useful.
