# What's on Your Implant Tray?

As clinicians, we're always trying out new products and equipment. And before we buy, we will almost always gauge what to purchase based on what colleagues and key opinion leaders use. Unfortunately, it isn't very often we actually get to see other dentists' or specialists' tray setups. Here, we make it easy for you. In this installment of "What's On Your Tray?" *Dentaltown Magazine* takes a close-up look at four dentists' implant tray setups – these include the tools they love, the instruments they can't practice without and the brands they prefer.

Columbia Retractor  
PGA Suture  
Littauer Suture Scissor  
Par Perio Needle Holder  
Cardanic Driver

Camlog Promote Plus osteotomes and surgical kit – Henry Schein  
Major supplies from Ace Surgical and Salvin
