

You are invited to visit Dentaltown.com to ask questions or post comments about the following New Product Profiles. The threads (discussions) can be accessed from the home page of Dentaltown.com or you can follow the headings at the end of each description.

1-800-Dentist's Patient Activator Service

Patient Activator is an internal marketing program aimed to help dentists retain and reactivate existing patients. Utilizing a strategy of 12 communications per year including newsletters, educational recall cards and e-communications, the program motivates a dentist's current patients into treatment with their office.
