

PREMIER DENTAL

Traxodent Hemodent Paste Retraction System

Clinicians who are looking for a better solution that delivers quicker hemostasis and retraction in addition to a better patient experience choose award-winning Traxodent. The product is the No. 1 choice among dental professionals because it works fast, helps capture accurate impressions and rinses away easily. No film residue—no worries! Use it alone or with cord or a retraction cap for greater gingival deflection. Because Traxodent doesn't irritate or discolor surrounding tissue, patients leave happier. The system provides predictable results and reduced chair time every time.

premier Inspired solutions for daily dentistry®

HIGHLIGHTS

- **Effective hemostasis and retraction**—predictable results and accurate impressions.
- **Fast and easy handling**—works within 2–3 minutes and available in syringe and unit-dose dispensers.
- **Rinses clean with no residue**—no interference with future bonding and cementation.

ULTRALIGHT OPTICS

Feather Light LED

The Feather Light LED is Dentaltown's 2013–2017 Townie Award winner in the headlight category. Designed by dentists and ophthalmologists, the focused light illuminates the oral cavity perfectly, distributing a balanced amount of brightness that is comfortable for the eyes in six different intensity levels.

There are more than 100 custom-made attachments for the light to fit onto every pair of loupes, safety glasses, headbands, prescription glasses and more. With a touch sensor battery option, clinicians can work absolutely hands-free and contamination-free with a system that works for them.

HIGHLIGHTS

- Digital touch sensor. Clinicians can activate the headlight **completely hands-free** and don't have to use contaminated gloves to turn the light on and off or change intensities.
- Ultralight weight. Feather Light loupes provide a lightweight loupe and light combo. Enjoy **clarity and comfort** all day.
- Lifetime warranty. Clinicians get the **highest level of service** because of the built-in durability of fully replaceable cords that even replace the light's internal connections for a true lifetime warranty.
