

► TOPSORTHO

Award-winning practice management software

Lightning Cloud is the ironclad, secure high-performance cloud that delivers topsOrtho, the innovative, award-winning Mac-based software that helps orthodontic practices throughout the world run smoothly. The topsOrtho practice management and imaging system is fast, easy and reliable: *fast*, as in from top to bottom, topsOrtho is built for speed; *easy* because it's designed to be intuitive, with the user in mind; and *reliable* means no lockups, crashes, viruses or networking headaches.

With Lightning Cloud, access to high-res images is superfast and accessible 24/7 with internet connection. There is no need for time-consuming backups, server headaches or IT costs. Platform One is topsOrtho's way of helping practices compete in the modern world of orthodontics. With an ever-evolving suite of services and products, topsOrtho has orthodontists covered. Platform One products (including topsCephMate, topsEcho and topsCheck-In for iPad) and the company's services (including compliant messaging,

patient education and practice performance) are all powered by extremely powerful partners and the award-winning team at topsOrtho. topsOrtho wants orthodontists to be focused on one thing and one thing only: being an orthodontist.
