

Laboratory: Veneer and High Aesthetic

**GLIDWELL LABORATORIES:
DIAGNOSTIC WAX-UPS**

Prior to preparation, Digital Diagnostic Wax-Ups provide a valuable preview of a patient's finished case. Once approved, Glidewell can duplicate the morphology to make BioTemps Provisionals and, later, the final restoration. Glidewell's aesthetic services include BruxZir Anterior, Obsidian and IPS e.max. Thank you, Townies, for choosing Glidewell Laboratories.

Cosmetic Bleaching: In-Office System

ULTRADENT PRODUCTS: OPALESCENCE BOOST

Opalescence Boost PF 40% is Ultradent's chemically activated, in-office whitening product. Syringe-to-syringe mixing activates Boost just before application, with no light required. It contains potassium nitrate and fluoride to decrease sensitivity, and is applied directly to the teeth via convenient syringe delivery for two 20-minute applications.

Cosmetic Bleaching: Take-Home System

ULTRADENT PRODUCTS: OPALESCENCE PF TOOTH WHITENING SYSTEMS

Opalescence PF customized take-home whitening trays and gel offer a variety of whitening options. With its easy syringe delivery in 10, 15, 20 and 35 percent carbamide peroxide in mint, melon and peach flavors—customizable for each patient's individual situation—Opalescence PF's sticky, viscous formula ensures the gel won't migrate to soft tissues.

Clear Aligner Systems

ALIGN TECHNOLOGY: INVISALIGN

Invisalign is engineered to deliver even better clinical results. Optimized root-control attachments provide greater mesiodistal root tip control for canines and central incisors. Multiplane movement features improved predictability for upper laterals. A new multitooth approach provides better clinical outcomes for anterior open bites. Learn more at aligntechinstitute.com.
