Pre-Sterilization: Ultrasonic Units

COLTÈNE: BIOSONIC ULTRASONIC CLEANER

BioSonic UC300 has a 3-gallon tank capacity, with multiple basket and beaker arrangements, adjustable basket dividers for sorting instruments, and racks to accommodate popular cassette systems. The unique design of the bezel and lid reduces noise levels for quiet operation and limits airborne contaminants, providing a quiet and safe working environment. Visit coltene.com.

Sterilization Pouches

HENRY SCHEIN DENTAL: SELF SEAL STERILIZATION POUCHES

Superior-quality sterilization pouches with dual internal and external indicators that are preprinted on the same side and change color when processed with steam or EtO. This helps avoid the need for additional process indicator strips with every use. Constructed of medical-grade paper with an easy-to-open thumb notch, these pouches meet CDC infection control guidelines for effective sterilization processing. In addition, the pouches and packaging are lead- and latex-free.

Surface Disinfectants

KERR: CAVICIDE SPRAY/CAWIWIPES

CaviWipes offer the convenience of surface disinfection, decontamination and cleaning in a single disposable product. CaviWipes are disposable towelettes presaturated with CaviCide, an intermediate-level disinfectant effective against viruses, bacteria, fungi and TB. The nonwoven towelettes are recommended for cleaning and disinfection of hard, nonporous exterior surfaces, where cross-contamination is an issue.
