

Laboratory: Removable
GLIDEWELL LABORATORIES

Simply Natural Digital Dentures can streamline chair time with CAD/CAM technology. The try-in appliance features a 3-D printed base and the final anterior denture teeth set in wax, allowing dentists to assess the final setup after just one impression appointment. Thank you, Townies, for entrusting Glidewell with your casework.

RADIOLOGY

X-Ray Equipment: Conebeam CT Scanner
DENTSPLY SIRONA IMAGING SYSTEMS: GALILEOS

Galileos Comfort Plus is an advanced CBCT unit with optional HD mode with one of the lowest diagnostic doses per volume size available. With a 14-second scan, it provides practitioners and specialists with every clinical view necessary for making informed diagnoses and confident treatment plans. The Galileos has 15.4cm spherical volume with MARS and a close-up feature with 125µ resolution for endodontic applications. It offers seamless digital workflow and integration with software with superior diagnostic features. Options include: Galileos Implant, SICAT Air, SICAT Function and FaceScan.

X-Ray Equipment: 3-D Imaging Software
DENTSPLY SIRONA IMAGING SYSTEMS: SIDEXIS 4

Sidexis 4 is the ultimate platform for dental imaging software. Optimal flexibility allows each clinician to capture images in the format and order that suits their workflow, while the Timeline feature provides a dynamic overview of every image captured on a patient on one screen. The Lightbox feature allows users to place images from all sources, including 2-D and 3-D volumes, side-by-side in a single screen to allow fast diagnosis and simplistic patient communication. Emailing and printing of images for referrals and insurance claims is simple—with multiple output options right at the clinician's fingertips.

**TOWNIE CHOICE
AWARDS**

RADIOLOGY

X-Ray Equipment: Digital X-Ray Sensors

DEXIS: INTRAORAL DIGITAL SENSOR

The award-winning Dexis sensor provides highly detailed radiographic images for optimal diagnosis. Workflow is faster with this PerfectSize single-sized sensor system. Clinicians and patients benefit from the sensor's beveled corners and smooth edges that allow quick, easy and comfortable placement.

X-Ray Equipment: Panoramic/Cephalometric Machines (Digital)

PLANMECA USA: PROMAX S3

Planmeca ProMax S3: The industry's No. 1 digital panoramic X-ray. The Planmeca ProMax S3 revolutionizes routine diagnostic imaging with anatomically accurate extraoral bitewings, possible only with patented SCARA technology. These extraoral bitewings eliminate gagging and capture a greater number of surfaces for better caries detection versus intraoral modalities.

RESTORATIVE DENTISTRY

Aesthetic Post Systems

COLTÈNE: PARAPOST FIBER LUX/TAPER LUX

ParaPost Fiber Lux and Taper Lux are made of a translucent, light-transmitting, fiber-resin material. They can be used with self- or dual-cured materials for fast cementation. The double-undercut, rounded-head design reduces stress points and locks in composite core materials. It's available in 10 sizes. For more information, call 800-221-3046.
