

PAC-DENT

PROMATE CL CORDLESS HYGIENE HANDPIECE

Pac-Dent's ProMate CL cordless prophylaxis system is designed to provide clinicians with an ergonomic and lightweight handpiece that delivers independence from heavy cord drag and significantly reduces hand and wrist fatigue. It is optimally weight-balanced to eliminate unnecessary leverage and improve intraoral access.

ProMate CL features dual-mode speed control with six speed settings from 0 to 4,000 rpm. The speed can be easily adjusted with an ergonomically located button on the handpiece or with the included wireless foot pedal.

For more information, visit pac-dent.com or call **909-839-0888**.

HIGHLIGHTS

- **Made with the clinician in mind.**
Cordless design eliminates cord drag, reduces wrist fatigue and increases operator hand mobility.
- **Ultralight construction.**
Up to 20% lighter than industry-leading low-speed handpieces to provide the ultimate comfort during polishing.
