

SCHEDULING INSTITUTE & THE PRACTICE GROWTH INSTITUTE

CHAMPIONING PRIVATE PRACTICE GROWTH SINCE 1997

With a 28-year track record of proven results, Scheduling Institute has helped more than 11,000 private practices increase revenue through its pioneer new patient-focused programs.

Today, Scheduling Institute remains an industry leader in driving new patient growth and enhancing the patient experience.

As the company evolved to support all aspects of practice growth, it launched its newest division: The Practice Growth Institute. While new patient growth remains the foundation, this division delivers training and coaching that advances both personal and professional development—helping doctors build wealth, strengthen leadership and prepare for a successful exit or succession.

From foundational trainings that improve new patient conversions and elevate the patient experience to advanced coaching that supports long-term financial success, Scheduling Institute and The Practice Growth Institute provide a complete road map for private practices to grow, thrive and stay independent—regardless of economic conditions.

With more than 35,000 in-office trainings delivered and more practices elevated into the top 1% than any other group, it's no surprise the company has earned a Dental Townie Choice Award in the Consultants & Advisors category for 15 years in a row.
