GUTTA-PERCHA POINTS

Dentsply Sirona Endodontics: Conform Fit Gutta-Percha for ProTaper Gold

Precision-machined gutta-percha delivers a more precise match to corresponding file sizes. The Conform Fit technology heats more consistently and at a lower temperature for increased safety, while allowing the transfer of heat up to 4mm beyond the heat source.

FILES/REAMERS

Dentsply Sirona Endodontics: ProTaper

The ProTaper line of endodontic files brings predictability and efficiency to shaping, beginning with the performance of ProTaper Universal. Taking the same geometries and technique, ProTaper Gold enhances its flexibility with advanced metallurgy, while ProTaper Next offers a unique offset design with M-Wire for increased resistance to cyclic fatigue.

3.

Circle the numbers corresponding to all the items you're interested in, then fill out your information and drop the card in the mail. We'll do the rest!

SEALERS

Brasseler USA: EndoSequence BC Sealer

BC Sealer is a patented pre-mixed root canal sealer utilizing new bioceramic nanotechnology. This highly radiopaque and hydrophilic sealer forms hydroxyapatite upon setting and chemically bonds to both dentin and to EndoSequence bioceramic points. BC Sealer is antibacterial during setting due to its highly alkaline pH. And, unlike traditional sealers, it exhibits zero shrinkage.
