

## NEW PRODUCTS

Introduced Between May 1, 2021, and April 30, 2022

### EQUIPMENT

#### Ultradent: Valo Grand Curing Light Accessories

Valo Grand Lenses are compatible with Valo Grand dental curing lights only. These accessories snap on quickly and easily, adapting a curing light to provide additional, specialized functions. Lenses are reusable and should be disinfected using an intermediate-level disinfectant after each use.

### MATERIALS (3-WAY TIE)

#### A-dec: A-dec Evacuation System Cleaner

A vacuum pump is at the core of a practice. Keep it running at peak performance—and avoid costly repairs and downtime—with A-dec Evacuation System Cleaner. Easy to use, this unique, multienzyme solution is specifically formulated to dissolve and remove organic and inorganic debris that may build up over time.

#### GC America: G-Cem One

G-Cem One is a universal self-adhesive resin cement that combines high-bond strength, effortless cleanup and excellent self-curing ability for a wide range of indications in a one-product solution. The optional adhesive-enhancing primer offers flexibility for extra bond strength in challenging clinical situations, thanks to its Touch Cure feature.
