

RESTORATIVE DENTISTRY

BONDING AGENTS

3M Oral Care: Scotchbond Universal Adhesive

Scotchbond Universal Adhesive is a single-bottle solution that offers a one-step, one-coat, 35-second application—without compromising strength. It can be used in all etching techniques, including total-etch, self-etch and selective-etch, in direct and indirect applications and on all dental surfaces, without any extra primer.

GINGIVAL RETRACTION MATERIALS

Ultradent: Ultrapak Retraction Cord

Ultrapak cord is made of 100% cotton, knitted into thousands of tiny loops to form long, interlocking chains. This unique knitted design exerts a gentle, continuous outward force following placement as the knitted loops seek to open. Optimal tissue displacement occurs in three to eight minutes.
