### PATIENT FINANCE

## CareCredit

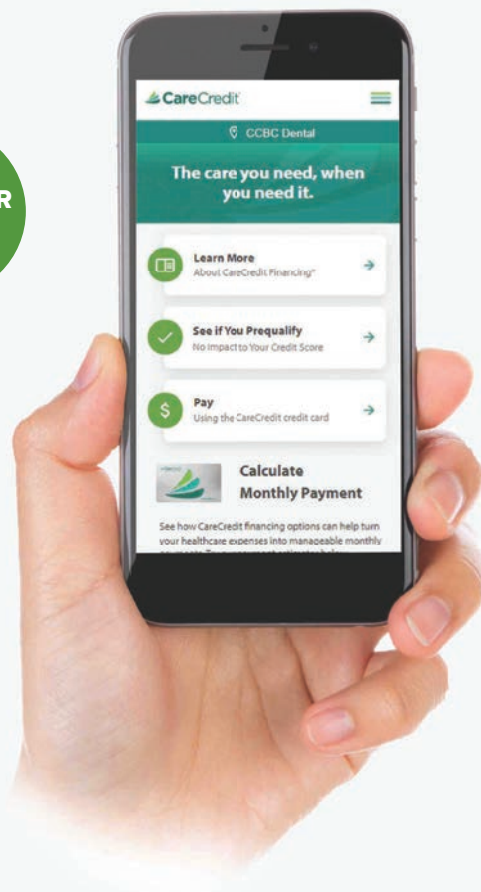

Cost remains a top barrier to treatment acceptance. Letting patients know they may be able to pay over time with the CareCredit credit card, often with promotional financing, may help those with a gap between the cost of treatment and their benefits schedule immediate care. It's financing simplified.

**TG's Take:** *A perennial winner, CareCredit empowers patients to afford the care they deserve, ensuring access to exceptional dentistry is always a priority. Offering flexible financing options, it reduces the financial barriers to treatment acceptance. Practices that offer CareCredit often see higher patient satisfaction and case acceptance rates.*
