PROSTHODONTICS

CROWN AND BRIDGE: ALL-CERAMIC CROWNS RX

Glidewell: BruxZir

The BruxZir Zirconia family of restorative materials offers leading, lasting and life-changing solutions for dentistry's everyday challenges. The BruxZir brand has demonstrated outstanding performance, surpassing 10 years with zero terminal fractures in a clinical study conducted by the Gordon J. Christensen Clinicians Report. Thank you, Townies, for choosing BruxZir Zirconia.

TG's Take: *A multi-year winner, BruxZir all-ceramic crowns have made the PFM crown nearly obsolete, reshaping the landscape of restorative dentistry. Renowned for their strength and natural-looking aesthetics, they're a top choice for durability. Patients and clinicians alike appreciate the blend of beauty and resilience that BruxZir provides.*

DIGITAL DENTURES (MILLED OR PRINTED)

Dentsply Sirona Equipment: Lucitone Digital Print

Trust the Lucitone Digital Print Denture System to optimize labor resources and increase denture throughput with beautiful, precise results. It's a proven approach, built on more than 100 years of materials science and in-market success, offering a complete system with an efficient workflow, ultimate reliability, durability and premium aesthetics.

***TG's Take:** A new winner transforming complete dentures, Lucitone Digital Print shows that digital is the future. The system's seamless workflow helps clinicians produce highly accurate and aesthetic dentures. Embracing this technology keeps practices ahead of the curve and provides patients with next-level care.*

RESTORATIVE DENTISTRY

MATRIX MATERIALS AND SYSTEMS

Garrison Dental Solutions: Garrison Sectional Matrix System

The Strata-G Sectional Matrix is engineered to successfully complete a wider variety of Class II composite restorations. This comprehensive kit includes three varieties of separator rings, five sizes of matrix bands, four sizes of interproximal wedges and ring placement forceps. Strata-G is indicated for use in posterior Class II MO/DO, MOD and wide preparation restorations.

TG's Take: A repeat winner, Garrison's sectional matrix system is a staple for predictable contours and contacts in Class II restorations, beloved in general dentistry. By enhancing adaptation and reducing flash, this system simplifies the process for consistent results. It's an essential tool that tackles one of restorative dentistry's biggest challenges.
