

RESTORATIVE DENTISTRY

BONDING AGENTS

Solventum: 3M Scotchbond Universal Plus Adhesive

3M Scotchbond Universal Plus Adhesive, the first universal adhesive with dentin-like radiopacity, provides gold standard adhesion to all dental substrates. It seals caries-affected dentin, supporting minimally invasive dentistry, and is suitable for all direct and indirect bonding indications and all etching techniques.

GLASS IONOMERS

GC America Inc.: GC Fuji II LC

GC Fuji II LC is a light-cured glass ionomer restorative with outstanding flexural strength and excellent bond strength even in presence of saliva. Its aesthetics, simplicity, and economy make it a fantastic choice for Class V restorations, cervical erosions/abfraction lesions, and as a liner/base.
